

PRE-SEED · €150k · VEST VENTURES ACCELERATOR

ADMINISTRATIVO

HR software for Romanian SMEs: staff clock in by phone, leave tracks itself, and filings reach the Labour Inspectorate over its API.

 administrativo.ro

 Timișoara, Romania

Every Romanian employer must log hours daily and report each hire to the state

≈526,000

employers bound by these rules

Daily start and end hours per employee; paper or Excel is legal, and easy to rewrite

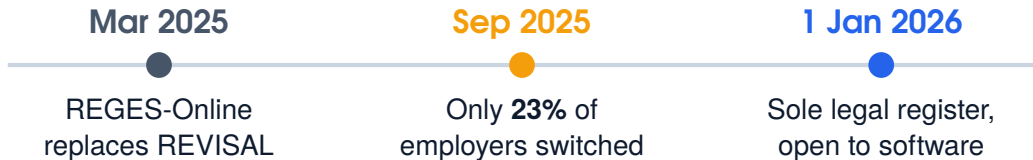

Every hire filed in REGES-Online before work starts

Fines of 3,000–8,000 RON per employee for late filings

Sources: ICAP CRIF, FY2025 (companies with ≥ 1 employee); Labour Code art. 119; HG 295/2025 art. 9. Paper and Excel are legal formats. URLs: data room, market research §a–b.

Since January 2026, HR reporting to the state runs through an API

Our HR record becomes the filing.

 Risk: decree annulled at first instance (Apr 2026); not final, still applies.

Sources: HG 295/2025 and OUG 46/2025 (Portal Legislativ); 23%: Ministry of Labour via Avocatnet, Sep 2025; annulment: Constanța Court of Appeal, Decision 83/2026.
URLs: data room, market research \$b.

One employee record serves the staff, the owner and the accountant

Phone clock-in

Tap in or scan a QR poster; leave balances update themselves.

REGES by API

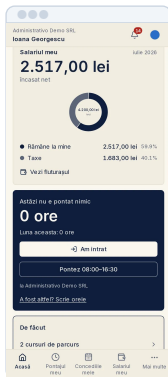

Hires and changes filed from the record; receipts come back.

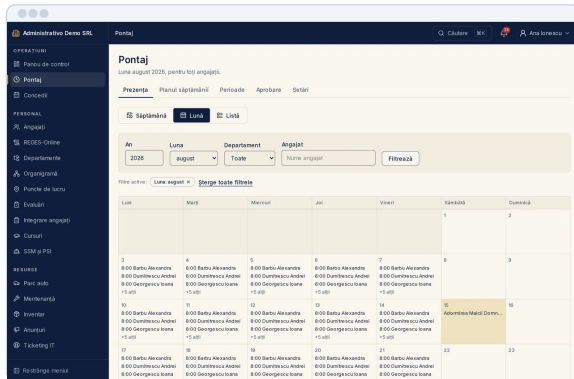

Accountant-ready

Hours, leave and payroll files. Payroll: built, undergoing accountant validation.

The product is live, on desktop and on the phone

Employee app

Manager view: monthly timesheet

Live production screens, demo company with fictitious staff. The app is in Romanian.

A €188M-a-year market at our cheapest price

TAM

€188M

a year: 526,000
employers × the
149 RON core plan

SAM

€58M

a year: about 54,000
firms with 10–249 staff

SOM, BASE CASE

€179k

ARR: 284 paying
companies by month 36

Derived: ICAP CRIF FY2025 (employers); Eurostat SBS 2023 (size classes); our list prices; 5 RON = 1 EUR. SOM is a projection from financial-model.xlsx. Formulas: data room, market research §e.

A flat monthly price per company, not per seat

149–499 RON

per company per month, up to 20 employees ($\approx$ €30–100)

First month free · no setup fee · five packages

Model, year 2: ARPA €50, contribution margin 95%, CAC payback 10.5 months (projection)

Accountants bring their client companies to us

≈18,400 accounting practices in Romania can recommend us.

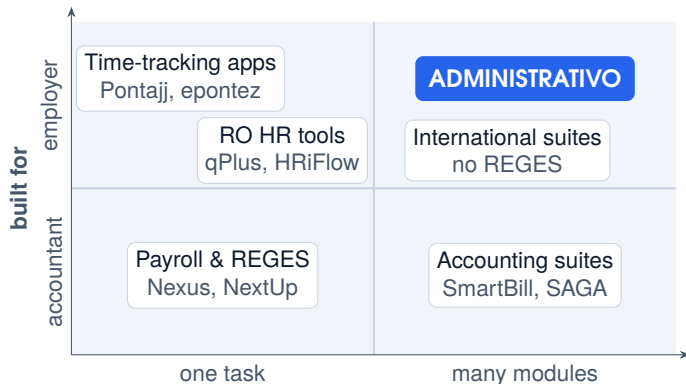

Practices: CECCAR 2025 report as reported by a secondary source (12,776 firms + 5,671 individual practitioners). Pilot terms: administrativo.ro/pentru-contabili.

Live and filing to REGES-Online; no revenue yet

0 paying customers today. Pilot sign-ups close 15 Nov; paid conversions planned from Apr 2027.

Payroll tools serve accountants; we serve employers

Our lane: the employer's daily HR, Romanian compliance built in, flat price.

The accountant gets clean data, not a rival payroll.

Our analysis of vendor sites and price pages, 6 Oct 2026. "No REGES" = no public evidence found. Details: data room, market research §c.

Two technical co-founders who built the platform

Miroslav Maletici

CEO

Built the platform end to end, from the first commit.

Politehnica University
of Timișoara

Răzvan Pervulescu

CTO

Co-develops the platform:
200+ commits.

Politehnica University
of Timișoara

Both full time from the close of the round.

Git history, 17 Aug – 6 Oct 2026 (811 commits in total).

€150k takes us to 100 paying companies

€150,000

One Vest Ventures accelerator ticket
